The Library Technician 1-Year Certificate Program will provide students with the training needed to gain an entry-level position as support staff in various types of libraries. Students will have sufficient skills to work in an academic, special, public, or school library and develop technological, clerical, and service-oriented skills.

**FMCC’s New Curriculum** includes the following new courses:

- LB101 Introduction to Library Services
- LB120 Public Services
- LB122 Audio-Visual/Media Services
- LB124 Technical Services
- LB126 Information & Referral

...as well as these existing courses:

- BU137 Business Communications
- BU298-299 Business Internship
- CS104/106 Microcomputer Personal Productivity I/II
- OT236 Administrative Support Procedures II
